

November 16, 2020

Good Afternoon Families of IBEC Elders,

Thank you to those families who have expressed their concern with reopening. We have taken your concerns into consideration.

We have been holding out until the last moment to decide on continuing on with our plan to resume indoor visits tomorrow.

We know how important connecting our Elders to their families is for both parties. However, given that our Covid numbers in Winnipeg are at the highest yet, it is our decision to continue to wait before having visitors into the Home.

We are continually evaluating this situation and will open to visits as soon as we see the Covid cases in Winnipeg under control. We are being diligent internally in our PPE use and environmental cleaning. Life Enrichment continues to offer small, physically distanced activities on the neighbourhoods.

The Life Enrichment Team is happy to facilitate virtual and window visits with you and your loved one. Please contact them to arrange a time.

We sincerely hope to have you back soon.

Please stay home and stay safe.

Feel free to contact us with any questions or concerns you may have.
